PROJECTS

Food Donation Management System | *React.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma*

- Built a scalable full-stack platform for donors, riders, organisations, and admins.
- Implemented secure JWT-based role authentication and authorization.
- Developed automated donation assignment and real-time tracking workflows.
- Created an admin dashboard with donation analytics and activity monitoring.

EcoCycle360 – Recycling and Carbon Tracking Platform | *React.js, Node.js, Express.js, PostgreSQL, Python*

- Developed a recycling and carbon footprint tracking platform for enterprises and users.
- Built recyclable pickup logistics and CO₂ tracking systems.
- Designed ESG dashboards for sustainability analytics and reporting.
- Integrated an ML model to estimate CO₂ savings using emission datasets.

SmartShoppingCart | *React.js, Node.js, PostgreSQL, SQLite, Raspberry Pi*

- Developed a Raspberry Pi based smart shopping cart with indoor navigation and barcode-based self billing.
- Implemented shortest-path routing and crowd-aware aisle navigation using planogram-based mapping.
- Built virtual cart and billing modules with SQLite local storage and PostgreSQL centralized analytics.
- Integrated personalized recommendations, offline support, and real-time product tracking features.

ACHIEVEMENTS

Solved **1600+** problems across platforms including LeetCode, Codeforces, CodeChef, CSES.

CodeChef rating of **1636**, participated in 36+ contests solving complex algorithmic problems.

Codeforces rating of **1368** through consistent competitive programming practice.

LeetCode rating of **1969**, solving advanced Data Structures and Algorithms problems.

Secured **15th place in CodeRumble 3.0**, demonstrating strong analytical and problem-solving skills.

LEADERSHIP EXPERIENCE

Counseling Committee Member

IIIT Jabalpur

Mentor

Aug 2024 – Present

- Mentored 40+ juniors on academic planning and personal development.
